Dear PPAG, please drop the appeal

We, the undersigned, call upon Portygreenkeepers (PPAG) to withdraw their appeal against Lady Dorrian's judgement.

We ask that they stop and consider the damage and distress they are causing to the local community, and in particular to the educational needs of local children.

We ask that they accept that a fair and transparent democratic process has been followed and that the will of the people has been carried out by City of Edinburgh Council, approved by the Scottish Parliament and ratified through the courts.

We ask PPAG supporters to finally accept that they have lost the argument and to see that any further delay they cause to the new school through their actions will be seen as vindictive.

Let's build the school and begin to re-build our community. Please, for the sake of our children, show some compassion and drop the appeal.
